Principal-In-Charge,
Senior Landscape Architect

Wilfred Lewis
CAD Operations / Design
Architect

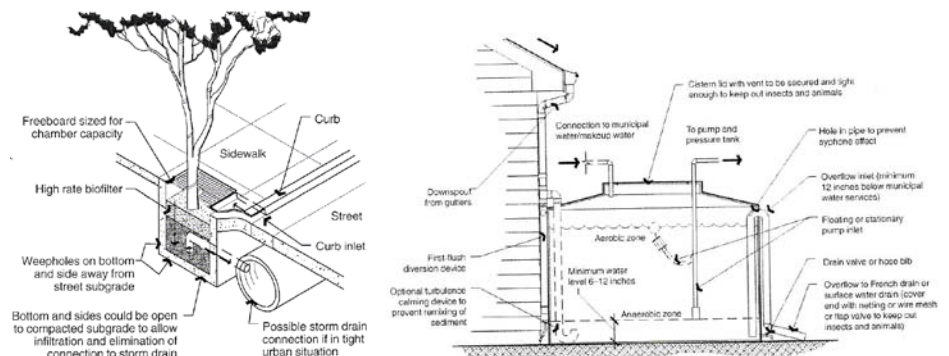

The Edgecombe Group, Inc. had worked with Architects Ehrenkrantz, Eckstut, and Kuhn as Landscape Architects to help plan the design of a LEED certified recreational center located on a 5-acre site within the Deanwood Community of Washington, D.C.

This project also involved various subsequent urban design reviews, public hearings, and coordination with multiple District of Columbia Municipal agencies. This project was required to be LEED certified.

Various Landscape Design components include tennis courts, combination football and baseball field, perimeter landscaping, playground, courtyard, and irrigation system.
